- ✓ Ambition Enhancements

ACCELERATE

We provide you with personalised services designed to help tailor solutions to specific needs, accelerating your journey to Ecological Transformation.

- PERSONALISE

- 💡 **Expert dedication:** Sustainability Specialist
- ✓ Organisational Sustainable Waste Strategy

REVIEW

As a first step, our Review suite gives you the core information you need to make informed decisions.

ASSESS

We start your journey by performing assessments to create benchmarks of your current waste management processes, allowing you to measure progress from your baseline.

Site Assessment

A Sustainability Specialist will visit your site and meet with key stakeholders to understand your business' current culture around waste and your challenges and opportunities around waste management. This is your starting point for an effective plan of action.

Waste Audit

To gather the data required for informed decision-making, our Specialists will undertake audits to understand the composition and flow of waste.

Carbon Assessment

If you're working towards Net Zero, our proprietary Greenpath tool allows an assessment of your carbon emissions and opportunities for improvement.

Output

Waste Baseline Assessment Report

A detailed review of your existing waste profile and waste management practices, designed to highlight and quantify your key opportunities for improvement.

PLAN

Using your site assessment data, we develop best practice recommendations to improve your waste practices in line with your sustainability ambition.

Best Practice Waste Management

Our Specialists will help you create a clear waste management plan for consistency throughout your business, and continually monitor your policies to help maximise opportunities for improvement.

Education Strategy

Using our bespoke tools, our Specialists will develop a personalised education strategy to connect your infrastructure with your employee behaviour, ensuring your business is working as one towards the same sustainability goals.

This includes a customised combination of tools such as our proprietary ResourceWise education tool, face to face training, onsite resources and digital gamification.

Output

Sustainable Waste Management Framework

Your action plan, outlining everything you need to know to change your practices in pursuit of your ambition.

PERFORM

Our Perform suite consists of practical tools and hands-on support to help you improve your waste practices across your whole business ecosystem.

ACTIVATE

Our Sustainability Specialists not only set you up for success, but see it through too. We work with you to ensure your people, suppliers and customers have everything they need to help you reach your ambition.

Plan Development

Our Specialists take your best practice recommendations, build them out into an actionable roadmap and get all the practical foundations in place to hit the ground running with your framework.

Output

Framework Delivery

Implementing your agreed recommendations in tandem with you, your operational and account management teams. From training your staff to activating new practices across your business, we'll get you where you need to be: ambition achieved.

Ongoing Support and Monitoring

You won't be left to navigate your new strategy alone once it's been delivered. Once we've got your plan humming, we'll provide the tools and support you need to stay OnTrack with your targets. As well as providing access to real-time data monitoring through our Ecologic platform, our Specialists will stay in touch to suggest any plan adjustments, so you're always performing at your best.

ENHANCE

Take your sustainability performance to the next level with a range of add-on tools and services.

Waste Optimisation Analysis

Our Specialist will review your plan to ensure it's working effectively. We'll review your waste flow and refine your Waste Management Framework if needed. Here, you can benefit from an optimised collection profile and maximise cost efficiencies.

Packaging/Supplier Analysis

We can help navigate the complexities of your supply ecosystem. Our Specialist will review supplier packaging to identify any problematic incoming materials and develop refined guidelines, preventing waste before it even enters your site.

Circular Economy Analysis

We'll help give you a leg-up into the ever-widening circular economy. Our Specialist will identify opportunities for you to engage with the circular economy through the wide Veolia network, mapping out the potential circularity of your waste streams.

Carbon Neutral Waste Service

If you're working towards Net Zero, once we've activated your plan to maximise waste reduction, using our unique tools we will work with you to help you achieve your carbon reduction ambitions.

✓ Output

Optimisation Plans and Services

A tailored plan to help take your ambition even further. This might involve waste optimisation, guidelines to help manage packaging and suppliers, an introduction to the circular economy or a carbon neutral waste service – whatever is relevant and impactful for your business.

ACCELERATE

Our Accelerate offering provides a fully customised approach for your business.

PERSONALISE

To accelerate your way to sustainability leadership, you need that extra bit of support. That's us – we're an extension of your in-house team. Our Sustainability Specialists work with you, onsite at your business, to develop and implement a bespoke waste sustainability strategy geared towards reaching your ambition.

Sustainability Specialist

We can offer you direct access to a dedicated Sustainability Specialist, assigned to your business at an agreed level of support. This is an expert resource you can use as an add-on to your permanent staff; someone passionate to help build relationships with key stakeholders and maximise your organisation's impact. Your Specialist will deliver customised reports and leaderboards to bring your team on the journey, and help keep you on track for your goals.

Output

Organisational Sustainable Waste Strategy

A comprehensive waste sustainability strategy, developed with you and your organisation's leaders, to help you realise stretch ambitions and transform your operations.
