11/09/2024	08:00	EPA Environmental Line	Odour	REF 32754	Collector Road, Tarago	Approximately 8 km East of the site	Notifier reported the following odour: "Rotten nappies, garbage and overwhelming stench coming from Veolia Woodlawn Eco Precinct", 8am 11 September 2024.		3.697	Westerly Winds. Complainant was downwind of the premises	933.627	12.28	Y	The Odour Unit has completed a gas characterisation assessment to determine the presence of other odour gases. A copy of the assessment can be found on the Woodlawn Webpage under 'H2S Monitoring'. Veolia has received approval to undertake a trial utilising alternative methods of covering the tip face. Veolia will continue to implement the recommendations within the 2023 Odour Audit.		Date: 28/08/2024 ED3N-1: 792.09 ED3N-2: 792.09 ED3N-3: 792.09 ED3N-4: 791.66 ED3S-5: 793.65	Point 9 - 0 Point 71 - 0 Point 72 - 0	5:00am - 6:00pm	Y	An assessment of meteorological data and operational activity has been completed in order to investigate the potential source or cause of odour was undertaken with no significant impacts evident at the time of the complaint. Veolia acknowledges that the premises is potentially the source of the odour detected by the complainant based on wind direction. It is noted that H2S was not detected at the monitoring station on site or within Tarago on 11/09/2024.
10/09/2024		Website Feedback Form	Odour		Taylors Creek	Approximately 4-5 km West to South West of the site	Notifier reported the following odour: "Strong chemical smell" rated as a 6 - Unpleasant to remain in the area.		0.657 - 4.9	West to North North East	930 - 934	4.1 - 16.5	Y	The Odour Unit has completed a gas characterisation assessment to determine the presence of other odour gases. A copy of the assessment can be found on the Woodlawn Webpage under 'H2S Monitoring'. Veolia has received approval to undertake a trial utilising alternative methods of covering the tip face. Veolia will continue to implement the recommendations within the 2023 Odour Audit.		Date: 28/08/2024 ED3N-1: 792.09 ED3N-2: 792.09 ED3N-3: 792.09 ED3N-4: 791.66 ED3S-5: 793.65	Point 9 - 0 Point 71 - 0 Point 72 - 0	5:00am - 6:00pm		An assessment of meteorological data and operational activity has been completed in order to investigate the potential source or cause of odour was undertaken with no significant impacts evident at the time of the complaint. Veolia acknowledges that the premises is potentially the source of the odour detected by the complainant, however due a lack of location provided an analysis of the location vs the wind direction could not be made. It is noted that H2S was not detected at the monitoring station on site or within Tarago on 11/09/2024.
10/09/2024	20:00	EPA Environmental Line	Odour	REF 32775	Taylors Creek Road, Tarago	Approximately 4-5 km West to South West of the site	Notifier reported the following odour: "The foul stench coming out of the Veolia mine this evening is repulsive". 8pm 10 September 2024.		1.071	Westerly Winds. Complainant was not downwind of the premises	934.128	8.77	Y	The Odour Unit has completed a gas characterisation assessment to determine the presence of other odour gases. A copy of the assessment can be found on the Woodlawn Webpage under 'H2S Monitoring'. Veolia has received approval to undertake a trial utilising alternative methods of covering the tip face. Veolia will continue to implement the recommendations within the 2023 Odour Audit.		Date: 28/08/2024 ED3N-1: 792.09 ED3N-2: 792.09 ED3N-3: 792.09 ED3N-4: 791.66 ED3S-5: 793.65	Point 9 - 0 Point 71 - 0 Point 72 - 0	5:00am - 6:00pm	N	An assessment of meteorological data and operational activity has been completed in order to investigate the potential source or cause of odour was undertaken with no significant impacts evident at the time of the complaint. Veolia acknowledges that the premises is potentially the source of the odour detected by the complainant, however based on wind direction it is unlikely. It is noted that H2S was not detected at the monitoring station on site or within Tarago on 10/09/2024.
