

EPL No: 11436		Date: 26/09/2024																		
Date	Time	Method	EPA Ref	Type	Location	Proximity to Site	Description	Wind Rose Chart/Map	Au Wind Speed (m/s)	Au Wind Direction	Bar Pressure (hPa)	Temp10m_Au (°C)	Activity on site consistent with normal operation?	Action taken or proposed to be taken to deal with the incident and/or prevent a recurrence	Photograph of active landfill cell showing intermediate cover (closest to complainant site) [1]	Current level of leachate in each pond at most the most recent survey	Daily H25 Non Zero Value Average (PP8)	Mechanical evaporator run times on ondate of odour complaint	Correlation with wind direction (Y/N)	Conclusion
24/09/2024	08:00	EPA Environmental Line	Odour	REF 33010	Collector Road Tarago	Approximately 8 km East of the site	Notifier reported the following odour: "Caller was driving into town when they noticed the rotten odour coming from the Woodlawn Eco-precinct, Caller advised they can also smell the odour at their property, Incident Still Occurring." YES, Organisation - Woodlawn Eco-precinct - 8am 24 September 2024.		1.731	North Easterly winds Complainant not downwind of the premises.	930.8	6.773	Y	The Odour Unit has completed a gas characterisation assessment to determine the presence of other odour gases. A copy of the assessment can be found on the Woodlawn Webpage under 'H25 Monitoring'. Veolia has received approval to undertake a trial utilising alternative methods of covering the tip face. Veolia will continue to implement the recommendations within the 2023 Odour Audit.		Date: 12/09/2024 ED3N-1: 792.06 ED3N-2: 792.06 ED3N-3: 792.06 ED3N-4: 791.57 ED3S-5: 793.64	Point 9 - 0 Point 71 - 0 Point 72 - 0	5:00am - 6:00pm	Y	An assessment of meteorological data and operational activity has been completed in order to investigate the potential source or cause of odour was undertaken with no significant impacts evident at the time of the complaint. Veolia acknowledges that the premises is potentially the source of the odour detected by the complainant, however based on the wind direction at the time of the complaint it is unlikely. It is noted that H25 was not detected at the monitoring station on site or within Tarago on 24/09/2024.
20/09/2024	06:30	EPA Environmental Line	Odour	REF 32946	Collector Road Tarago	Approximately 8 km East of the site	Notifier reported the following odour: "There's a strong stinky in the air again in the Veolia's Woodlawn facility. Smells like rotting garbage. It's not strong enough to make reporter wrench this morning, but it is disgusting. It's cool and clear with no breeze. We are approximately 18km from Woodlawn. Work has been delayed outside until it clears because the smell makes me feel sick." 6:30am 20 September 2024.		5.211	West North Westerly Winds Complainant was downwind of the premises	918.537	6.809	Y	The Odour Unit has completed a gas characterisation assessment to determine the presence of other odour gases. A copy of the assessment can be found on the Woodlawn Webpage under 'H25 Monitoring'. Veolia has received approval to undertake a trial utilising alternative methods of covering the tip face. Veolia will continue to implement the recommendations within the 2023 Odour Audit.
