

EPL No:	11436
Date:	24/10/2024

Date	Time	Method	EPA Ref	Type	Location	Proximity to Site	Description	Wind Rose Chart/Map	Av. Wind Speed (m/s)	Av. Wind Direction	Bar. Pressure (hPa)	Temp10m Av (°C)	Activity on site consistent with normal operation?	Action taken or proposed to be taken to deal with the incident and/or prevent a recurrence	Photograph of active landfill cell showing intermediate cover (closest to complainant date) (1)	Current level of leachate in each pond at most the most recent survey	Daily H2S Non Zero Value Average (PPB)	Mechanical evaporator run times on ondate of odour complaint	Correlation with wind direction (Y/N)	Conclusion	
22/10/2024	05:30	EPA Environmental Line	REF 33771	Odour	Collector Road, tarago	Approximately 8 km East of the site	Notifier reported the following odour: "melt absolutely disgusting stench coming from Veolia, this continued until caller left her house"		0.280	West South Westerly Winds. Complainant likely downwind of the premises.	937.9		4.9	Y	The Odour Unit has completed a gas characterisation assessment to determine the presence of other odour gases. A copy of the assessment can be found on the Woodlawn Webpage under 'H2S Monitoring'. Veolia has received approval to undertake a trial utilising alternative methods of covering the tip face. Veolia will continue to implement the recommendations within the 2023 Odour Audit.		Date: 27/09/2024 ED3N-1: 792.1 ED3N-2: 792.1 ED3N-3: 792.1 ED3N-4: 791.5 ED3S-5: 793.68	Point 9 - 0 * Point 71 - 0 Point 72 - 0	5:00am - 6:00pm	Y	An assessment of meteorological data and operational activity has been completed in order to investigate the potential source or cause of odour was undertaken with no significant impacts evident at the time of the complaint. Veolia acknowledges that the premises is potentially the source of the odour detected by the complainant based on wind direction. It is noted that H2S was not detected at the monitoring station within Tarago on 22/10/2024.
18/10/2024	16:00	EPA Environmental Line	REF 33751	Odour	Braidwood Road Tarago	Approximately 8 km East of the site	Notifier reported the following odour: "The odour from Veolia woodlawn has been on and off today. Anytime it rains/there is moisture, the odour comes and is really bad. Unpleasant to be outside, odour gets into the house"		6	North Westerly Winds. Complainant not downwind of the premises.	924.7	20.02	Y	The Odour Unit has completed a gas characterisation assessment to determine the presence of other odour gases. A copy of the assessment can be found on the Woodlawn Webpage under 'H2S Monitoring'. Veolia has received approval to undertake a trial utilising alternative methods of covering the tip face.
