DRAIN CLEANING & NON- DESTRUCTIVE DIGGING

PRECISION DRAIN CLEANING &

SAFE NON-DESTRUCTIVE EXCAVATION SOLUTIONS

At Veolia's St Marys Liquid Treatment Plant, we deliver expert drain cleaning and non-destructive digging (NDD) services across Western Sydney and beyond. Backed by over 64 years of local expertise and Veolia's global resources, our specialist combo units combine high-pressure water jetting and powerful vacuum extraction to safely clean, unblock, and excavate - without the risk or cost of traditional digging.

Whether you need emergency drain clearing, routine maintenance, or precise subsurface excavation around critical infrastructure, our experienced teams and purpose-built equipment are ready to respond 24/7. We protect your assets, your people, and the environment - delivering fast, compliant, and measurable results every time.

FEATURES AND BENEFITS

- **Water system:** Large onboard tanks with high-pressure pumps and adjustable flow rates deliver powerful, controlled jetting for even the most stubborn blockages.
- **Vacuum system:** High-airflow positive displacement blowers with a precision boom arm enable safe, accurate hydro-excavation around live utilities and sensitive infrastructure.
- **Debris tank:** Integrated waste storage with hydraulic tipping allows efficient on-site collection and compliant disposal of excavated material and liquid waste.
- **Filtration:** Advanced systems separate liquids, solids, and air to protect equipment and ensure safe handling of all waste streams.
- **Proven expertise:** Decades of trusted local service, enhanced by Veolia's global best practices, innovation, and sustainability reporting capabilities.
- **Always ready:** 24/7/365 emergency and planned response capability, ensuring drain blockages and excavation needs are resolved without delay.

WE'RE COMMITTED TO EXCELLENCE

Alwayssafe

Safety is our highest priority and all Veolia operations adopt **Veolia's AlwaysSafe charter** - a behaviour-based safety initiative that communicates best practices and a no-compromise approach to safety for our people, customers, community and the planet - promoting responsibility for individual and shared safety.

VEOLIA

SOLUTIONS & SERVICES

Veolia's St Marys Liquid Treatment Plant provides comprehensive drain cleaning and non-destructive digging services from routine maintenance through to emergency response and complex subsurface excavation.

DRAIN CLEANING

- High-pressure water jetting to clear blockages in stormwater, sewer, and industrial drain networks
- Routine and preventative maintenance programs to reduce downtime and costly failures
- CCTV drain inspection in conjunction with cleaning services
- Grease trap and pit cleaning for commercial and industrial facilities

NON DESTRUCTIVE DIGGING (NDD / HYDRO EXCAVATION)

- Safe vacuum excavation around live gas, water, electrical, and telecommunications assets
- Precise potholing and service location to support construction and civil works
- Slot trenching for cable and pipe installation without damage to surrounding infrastructure
- Spoil removal and compliant disposal managed end-to-end

EMERGENCY RESPONSE

- Rapid mobilisation for blocked or failed drainage systems
- IOP (Interim On-site Pump Station) cleaning and pump-out to prevent sewage overflow
- Spill containment and recovery support

PROVEN RESULTS:
EMERGENCY IOP PUMP STATION CLEANING PROTECTS 150+ HOMES

Challenge: A large sewage holding tank (IOP) servicing over 150 homes experienced pump failure, creating an urgent risk of sewage backflow into residential properties and potential environmental contamination of the surrounding area.

Solution: Our team rapidly mobilised our specialist combo unit to the site. Using high-pressure water jetting combined with powerful vacuum extraction, we safely cleaned and fully drained the IOP tank - creating the conditions needed for the client to carry out critical pump replacements efficiently and safely.

Outcome:

- Tank fully cleaned and drained, enabling prompt pump replacement
- Sewage backflow into 150+ homes was successfully prevented
- Environmental contamination risk eliminated
- Zero safety incidents throughout the operation
- Rapid response minimised disruption to the local community
- Ongoing maintenance partnership established to prevent future failures

Your benefits with Veolia:

- Single point of contact for drain cleaning, NDD, and liquid waste disposal
- 24/7 emergency response backed by expanded fleet and personnel
- Compliant waste transport and treatment managed end-to-end
- Access to advanced reporting and sustainability metrics
- Proven local relationships enhanced by world-class operational excellence

GLOBAL KNOWLEDGE. LOCAL EXPERIENCE.

Veolia is a global leader in environmental services, operating across five continents with nearly 220,000 employees worldwide. The company is at the forefront of Ecological Transformation, designing and implementing practical solutions for sustainable resource management.

Through its three complementary activities - waste, water, and energy management - Veolia plays a crucial role in developing access to, preserving, and renewing our valuable resources. With a strong commitment to responsible stewardship, Veolia is a trusted partner for organisations seeking to reduce their environmental footprint, improve resource efficiency, and contribute to a more sustainable future.
